

How to	Workflows display
Description	Step by step description of how to perform a specific task in ROWS.
Comments	The <i>italic</i> phrases correspond to the red markings in the screenshots. Please be aware that the screenshots may deviate slightly from the application
version	2015-02

The default method to execute forecasts (workflows) is through the *Workflows* display, where the operator is guided through the process. Workflows may be executed either

- locally (F9) on the computer where the OC runs or
- server side (SHFT-F9).
